

inspiring natural potential...

The
GWiz
Learning Partnership

NLP MASTER PRACTITIONER

Certificated Qualifications

*Through these trainings
I have learned a fantastic
amount about NLP and
beyond, and had a lot of
fun doing it. Without
question this training
has changed (and
continues to change) my
life in countless positive
ways...*

Overview

**As you attend the GWiz Master Practitioner course,
you will be using NLP principles to explore
some of the big questions...**

How do you create your own reality?

What if reality were another form of dreamworld...
what would it mean and how might you **wake up**?

How can modelling help to unlock the unlimited you?

Who is 'I', who is 'me'?

What is the *real* nature of relationship?

What is your purpose?

How can problems and life challenges be reframed?

What do people and events teach you?

What is the body-mind connection?

How can you speak well the language of health?

Where do you stand and can you stand somewhere else?

How might you engage with and dance
through the paradoxes of life?

What is the nature of Time and Infinity?

Where else are you now?

What if all the obstacles disappeared for you?

*I've also reached new
levels of self-awareness
that I never felt
possible...
I'm having some real
Jonathan Livingston
Seagull moments!*

What is the GWiz NLP Master Practitioner?

Master Practitioner is the next step after Practitioner, enabling you to transform your NLP skills into a deeper, more subtle form of practice.

As well as drawing from Joe and Melody's twenty years experience each in the fields of psychology and personal development, you will also be learning the advanced works of some of the key NLP 'gurus'. You will develop a more profound understanding of what NLP can do by being immersed in a broad range of sources and learnings in philosophy, quantum psychology, spirituality and transpersonal development.

As the course progresses, you will become more and more elegant and eloquent in your use of NLP. Your applications and interventions will become more conversational, enabling you to bypass the conscious mind.

"FREE YOUR MIND..." The Matrix 1999

The theme of the GWiz Master Practitioner course is to explore the spiritual dimensions of NLP, challenging embedded beliefs and casting off the shackles of everyday experience.

Having learnt many of the components of NLP in Practitioner, you will be utilising these learnings and adding so much more as you begin to develop your own techniques and processes.

You will then be able to explore techniques and adapt them more spontaneously, allowing you to apply your skills in many more situations and environments.

Still assimilating the most amazing nine days of my life and really excited about where the journey will take me...

How do you Know you are Interested in Master Practitioner?

You might be interested in the GWiz Master Practitioner for many reasons. Because our approach is to keep groups smaller, you will be a participant on the course rather than just a member of an audience. This will benefit you in many ways including...

Personal & Spiritual Development

On a personal level you will learn how to shift deep limiting beliefs and improve the relationships you have with those in your environment. It may be for you that your personal development takes you on a more spiritual journey, helping you to find more balance, freedom, self mastery and inner peace.

Or perhaps you may experience...

- More to life and clarity of purpose
- A stronger sense of connectedness and interconnection
- Greater awareness of who you are and what it means to *be true to yourself*
- Multiple perspectives to help you move through your challenges
- Further understanding of your mission in 'life, the universe and everything'.

Professional Development

There will be subtle and practical benefits in your work life including understanding the systemic nature of groups and organisations, and how your presence within any system will profoundly influence other individuals in the group and the organisation.

Coaching & Supportive Relationships

By understanding that the outside world is a reflection of the inside world, you will have the opportunity to live the changes you want to see. Through making positive changes in your own life, you will allow those who come into contact with you to transform their own lives more effortlessly and easily.

*The programme has
created a real shift in me,
and I'm finding it so
exciting being able to use
my learning to help
others...*

Advancing Your NLP Skills

*Are you ready for the
experience now?*

Further Support After Master Practitioner

Practice Group

The GWiz Learning Partnership hosts a monthly evening meeting for NLP Practitioners (and beyond) to share ideas with one another and to 'sharpen the saw'. Practitioners from any school of NLP are welcome as are guests.

Supervision

Supervision is for small groups of Practitioner and Master Practitioners who want to focus on skill development through feedback and troubleshooting. Supervision is considered essential for any Practitioner or Master Practitioner working regularly with clients. Many corporate organisations now expect coaches of all types to be in regular supervision.

Coaching

Personal Support sessions are available to work through issues, develop strategies and achieve goals using NLP.

Adventures in NLP

Adventure Days are special interest workshops, exploring applications of NLP to various 'life' topics. Discover how NLP can open up new worlds and provide you with new tools and perspectives as you explore each topic.

Master Class Days

Master Class days will move you beyond Master Practitioner, taking your skills to the next level.

Master Practitioner

The Trainers

Our trainers are accredited with HNLP (Humanistic Neuro-linguistic Psychology) and the Association of NLP (ANLP). They are also the co-founders of PSiNLP with US Master Trainer Julie Silverthorn.

MELODY CHEAL (MSc psych, Master Trainer NLP)

Melody has an MSc in Applied Positive Psychology, a degree in Psychology, a diploma in Psychotherapy and is a certified NLP Master Trainer. She is also a practitioner of Myers Briggs, LAB Profile and Emotional Intelligence.

As a partner in The GWiz Learning Partnership, Melody runs courses in both the private and the public sector, focusing on interpersonal skills and self-awareness. Since 1993 she has worked with international committees, directors, senior managers, teams and front line staff in groups and one to one as a coach. She specialises in emotional intelligence, personal effectiveness, understanding behaviour and leadership.

JOE CHEAL (MSc OD&NLP, Master Trainer NLP)

Joe is a Learning & Organisational Development Specialist, focusing his training, coaching and consultancy experience into the business environment since 1993.

He holds an MSc in Organisational Development and Neuro-linguistic Technologies, a degree in Philosophy and Psychology, a diploma in Coaching and a diploma in Hypnotherapy, Psychotherapy and NLP. He is also certified NLP Master Trainer and a practitioner of Emotional Intelligence and LAB Profile.

As well as working closely with HR, L&D & OD professionals, he is a CIPD Committee Member.
