Dear Melody and Joe,

Having recently attended the NLP Master Practitioner Programme with the GWiz Training Partnership, I would like to say how much I enjoyed and personally benefited from the training.

Having used another provider for my NLP Practitioner programme, I was keen to experience a different approach, and I found the GWiz programme more than met my expectations. The mix of practical exercises, challenging and provocative discussions and knowledgeable and fascinating input from you, led to a truly memorable learning experience.

In particular, the challenging and supportive environment created over the 9 days helped encourage me to move out of my comfort zone and try new ideas. As a result, I discovered personal resources and confidence which enabled me to develop the Master Practitioner skills at a much deeper level than I was expecting.

Most importantly, I have felt motivated and confident to put the learning into practice immediately, and have already used techniques learned to help myself and others – and have already managed to complete one assignment ahead of schedule!

Once again, thank you for providing an opportunity for me to develop my abilities to a new level.

Yours sincerely,

I can thoroughly recommend Melody and Joe Cheal from the G-Wiz training project. I attended their recent NLP Practitioner course and found it to be thoroughly planned and organised and exceptionally well presented.

As a fellow trainer I have had many opportunities to interact with Melody and Joe Cheal over the past few years and they have always been professional, reliable and consistent. Feedback from their sessions has been very positive and each course has always met its set objectives.

Both trainers are sensitive in their approach. They demonstrate excellent interpersonal skills and build solid and lasting relationships with their clients and delegates.

Late last year I was searching for an NLP business practitioners course and came across the GWiz Training Partnership offering a 10 day course split over 5 weekends from January to May 2006. From my very first contact I was hopeful that the structure of the course and the trainers Melody and Joe Cheal would fit my learning style. This proved to be the case.

The venue provided a relaxed environment, supporting the creation of a comfortable atmosphere in the group where everyone had the opportunity to learn at their own pace. Melody and Joe had a great ability to be empathetic with each individual in the group. They also demonstrated a real strength of character to deal with one person who was causing some concern to a significant number of others. This resulted in that person leaving the course. This was integrity in action and strengthened the trust and harmony in the remaining group.

The materials we used were of high quality and were frequently updated with new and modified pieces. The exercises were well structured. The demonstrations managed by Melody and Joe showed a depth of knowledge and skill in using the techniques. They clearly know what they are talking about and are able to live it out in practice, often illustrating with ethically sound real life examples. The opportunity for hands on practice of the different techniques and the group discussions ensured a rich learning experience.

I know this course made a real difference to me and provided an insight that has enabled me to help others during team development and individual coaching sessions.

To whom it may concern

I would heartily recommend the GWiz practitioner and master practitioner trainings to anyone interested in NLP. I found the trainings to be thorough and well structured and Joe and Melody to be excellent communicators and facilitators. The GWiz format is excellent, with plenty of personal attention and opportunity for discussion. The supporting manuals are clearly laid out and provide a resource that I continue to refer to.

Through these trainings I have learned a fantastic amount about NLP and beyond, and had a lot of fun doing it. Without question this training has changed (and continues to change) my life in countless positive ways.

Yours sincerely

To Whom It May Concern

Dear Sir/Madam

Re: GWiz Training Partnership (Melody and Joe Cheal)

I have undertaken Neurolinguistic Programming (NLP) training at both Practitioner and Master Practitioner level with GWiz Training and cannot recommend them highly enough.

The courses were well planned with clear syllabuses, but I found the Melody and Joe's style flexible enough to allow for interesting diversions along the way. Comprehensive materials were provided, but for courses running at Melody and Joe's own home there is access to a well-stocked and eclectic library of supplementary reference material.

They also provide helpful post-course support in terms of optional supervisions, practice groups and workshops, useful for graduates practising professionally or on a personal basis.

As trainers, Melody and Joe are seasoned professionals with nearly 30 years' experience between them, besides which they are simply a lovely couple.

I'm sure your dealings with them will be positive and enjoyable.

Yours faithfully

Sarah Colwell, NLP Practitioner and Master Practitioner

To Whom it may concern.

### **GWiz Training Partnership**

I recently trained with GWiz Training partnership and achieved the NLP Business Practitioner qualification on a modular basis.

I am very impressed with the training provided by Melody and Joe. They manage to combine a professional and expert approach, whilst ensuring a comfortable and homely ambience. The main focus of the training was NLP, but the breadth of their knowledge of other psychological approaches was obvious and this offered depth to the training.

During the training, a difficult delegate's behaviour was undermining the learning of the group. This was managed in a discreet and firm manner.

I have also been pleased with the support offered post-training with a practice group and personal advice about setting up as a practitioner. Melody and Joe demonstrate a commitment to the learning and success of delegates.

I intend to undertake further training with GWiz and have recommended them to others.

To whom it may concern:

I took my Practitioner level with GWiz in August 2006. I was amazed how informal and relaxed the whole experience was. It wasn't until I was 'certified' that I realised Melody and Joe were 'working' their magic on us from the first second we walked through their front door!

The 9 days flew by and I was amazed at how much I was learning. They opened their home and shared their knowledge with us. The others on the course were all very approachable. We all shared some sensitive and also some humorous times which made my 'holiday week' from work extremely enjoyable.
